

Jobsite Safety Attestation

Customer's pre-dispatch certification that the Jobsite is reasonably safe for skilled trade work, and disclosure of any conditions a dispatched tradesperson should know before arrival.

Purpose of this document: Captures the Customer's factual representations about the Jobsite — utility marking, hazardous materials, access, and any known hazards — so the dispatched tradesperson is informed and protected. This document does not modify the booking terms in NPCS-001 or the indemnification in NPCS-003; it is the factual record those documents rely on.

Section 1 — Jobsite & Booking

Customer / entity _____
name: _____

Jobsite street _____
address: _____

City / state / ZIP: _____

Booking reference
(Stripe receipt # or _____
trade & date): _____

On-site point of _____
contact (name / cell): _____

Scheduled dispatch _____
date / time: _____

Section 2 — Underground Utility Marking

Pennsylvania law requires any party who excavates or demolishes to notify Pennsylvania One Call (call 811 or visit pa1call.org) at least three (3) business days before any digging. If the booked work involves any excavation, trenching, post-hole, anchoring, drilling into exterior walls, or pulling underground service, the Customer must complete this section.

Will the booked work involve any digging, excavation, or anchoring into the ground?

No — proceed to Section 3 Yes — complete below

PA One Call ticket _____
number: _____

Date ticket filed (3 biz _____
days before work): _____

Date markings _____
completed on site: _____

Marker color legend
confirmed? ■ Yes ■ _____
No: _____

Marker color legend. Red = electric · Yellow = gas/oil · Orange = communications · Blue = water · Green = sewer · Purple = reclaimed water/irrigation · White = proposed excavation · Pink = surveying.

Section 3 — Hazardous Materials Disclosure

The Customer affirmatively discloses any of the following **known or suspected** on the Jobsite. NEPA-PRO subcontractors are not licensed for hazardous-material remediation; if any are present, the booked work must avoid those areas, or the booking must be re-scoped.

- Asbestos suspected (typical indicators: pre-1980 construction, vermiculite insulation, 9x9 floor tiles, popcorn ceilings) — Disclosure: _____
- Lead paint suspected (typical indicator: pre-1978 housing) — Disclosure: _____
- Mold visible — Location: _____
- Mold odor without visible growth — Description: _____
- PCB-containing equipment (e.g., older transformers, ballasts) — Location: _____
- Underground oil tank — Location: _____
- Known sewer / septic backup — Description: _____
- Known structural deficiency / soft floor / failing beam — Location: _____
- Animal infestation (rodents, bats, wasps, etc.) — Description: _____
- Other hazard: _____
- **None of the above is known to the Customer.**

Section 4 — Access and Site Conditions

Site access. Tradesperson can reach the work area without entering an active home office, sleeping area of an unrelated occupant, or any locked space without a designated POC: ■ Yes ■ No (explain): _____

Lighting. Adequate natural or artificial lighting is available in the work area: ■ Yes ■ No (work zone is dark — please describe): _____

Bathroom access. Tradesperson has access to a bathroom or alternate facility: ■ Yes ■ No

Running water available on site: ■ Yes ■ No (off-grid)

Pets. Any animals on the property: ■ No ■ Yes — will be secured: _____

Live electrical hazards beyond the booked scope (e.g., a panel that has not been de-energized, exposed conductors):
■ None known ■ Yes (describe): _____

Active gas / pressurized lines beyond scope: ■ None known ■ Yes (describe): _____

Other on-site contractors working at same time: ■ No ■ Yes (which trades): _____

Live security cameras / monitoring on the property: ■ No ■ Yes

Anyone authorized to be present who is not the Customer: _____

Section 5 — Customer Attestation

- (a) The information above is true, complete, and correct to the best of the Customer's knowledge as of the date signed.
- (b) The Customer accepts that NEPA-PRO and the dispatched tradesperson will rely on these representations in deciding whether to proceed with the engagement and how to perform the work.
- (c) If any condition listed above changes between the date this attestation is signed and the date of dispatch, the Customer will **notify NEPA-PRO immediately** at 570-677-7971 or service@nepa-pro.com.
- (d) The Customer acknowledges that the tradesperson has stop-work authority under **NPSA-006 § 5** and may decline to perform any portion of the booked work that, in the tradesperson's reasonable judgment, exceeds safe field conditions. **The Customer remains responsible for the booked block in such case.**
- (e) The Customer acknowledges that hazardous-material conditions disclosed in **Section 3** may require the booked scope to be modified or rescheduled, and that NEPA-PRO may pause the engagement to work this out without penalty to NEPA-PRO.

Return instructions. Once signed and dated, return this document by email to service@nepa-pro.com with the subject line including your full legal name and the document code shown in the header. Mailed copies may be sent to: NEPA-PRO LLC, 14012 Orchard Drive, Clarks Summit, PA 18411. Documents must be received and countersigned by NEPA-PRO LLC before any customer dispatch is finalized.
